INDEX OF AUTHORS

Abernathy, Frederick H. & Kronauer, Richard E. The formation of vortex streets, **13**, 1962, 1

Acrivos, Andreas The asymptotic form of the laminar boundary layer mass-transfer rate for large interfacial velocities, **12**, 1962, 337 (and Corrigendum, **14**, 1962, 477)

See also Grove, Shair, Petersen & Acrivos; Shair, Grove, Petersen & Acrivos; Taylor & Acrivos

Ahlstrom, Harlow G. Experiments on the upstream wake in magneto-fluid dynamics, **15**, 1963, 205

Allan, W. K. The continuously critical turbulent boundary layer, **15**, 1963, 251

Alpher, Ralph A. The Saha equation and the adiabatic exponent in shock wave calculations, **2**, 1957, 123

Alpher, R. A. & White, D. R. Flow in shock tubes with area change at the diaphragm section, **3**, 1957–8, 457

Alzner, Edgar *See* Baron & Alzner

Appleton, J. P. & Bray, K. N. C. The conservation equations for a non-equilibrium plasma, **20**, 1964, 659

Arie, Mikio & Rouse, Hunter Experiments on two-dimensional flow over a normal wall, **1**, 1956, 129

Ashkenas, Harry *See* Wegener & Ashkenas

Axford, W. I. The oscillating plate problem in magnetohydrodynamics, **8**, 1960, 97

Baines, W. D. *See* Brundrett & Baines; Keffer & Baines

Bakke, P. An experimental investigation of a wall jet, **2**, 1957, 467

Baldwin, Barrett S. *See* Vincenti & Baldwin

Ball, F. K. Finite tidal waves propagated without change of shape, **9**, 1960, 506

Some general theorems concerning the finite motion of a shallow rotating liquid lying on a paraboloid, **17**, 1963, 240

Energy transfer between external and internal gravity waves, **19**, 1964, 465

See also Miles & Ball

Banks, P. J. *See* Hawthorne & Banks

Banks, Robert B. & Chandrasekhara, D. V. Experimental investigation of the penetration of a high-velocity gas jet through a liquid surface, **15**, 1963, 13

Barakat, Richard Vertical motion of a floating sphere in a sine-wave sea, **13**, 1962, 540

Barnard, B. J. S. *See* Benjamin & Barnard

Barnard, B. J. S. & Binnie, A. M. The vertical diffusivity and mean velocity of particles in a horizontal water pipe, **15**, 1963, 35

Baron, Judson R. & Alzner, Edgar An experimental investigation of a two-layer inviscid shock cap due to blunt-body nose injection, **15**, 1963, 442

Barratt, M. J. *See* Davies, Fisher & Barratt

Barthel, James R. & Lykoudis, Paul S. The slow motion of a magnetized sphere in a conducting medium, **8**, 1960, 307

Batchelor, G. K. On steady laminar flow with closed streamlines at large Reynolds number, **1**, 1956, 177

A proposal concerning laminar wakes behind bluff bodies at large Reynolds number, **1**, 1956, 388

Diffusion in free turbulent shear flows, **3**, 1957–8, 67

Small-scale variation of convected quantities like temperature in turbulent fluid. Part 1. General discussion and the case of small conductivity, **5**, 1959, 113

Axial flow in trailing line vortices, **20**, 1964, 645

Batchelor, G. K. & Gill, A. E. Analysis of the stability of axisymmetric jets, **14**, 1962, 529

Batchelor, G. K., Howells, I. D. & Townsend, A. A. Small-scale variation of convected quantities like temperature in turbulent fluid. Part 2. The case of large conductivity, **5**, 1959, 134

Bedder, D. *See* Freeman, Cash & Bedder

Benjamin, T. Brooke On the flow in channels when rigid obstacles are placed in the stream, **1**, 1956, 227

Wave formation in laminar flow down an inclined plane, **2**, 1957, 554 (and Corrigendum, **3**, 1958, 657)

Shearing flow over a wavy boundary, **6**, 1959, 161

Effects of a flexible boundary on hydrodynamic stability, **9**, 1960, 513

The development of three-dimensional disturbances in an unstable film of liquid flowing down an inclined plane, **10**, 1961, 401

The solitary wave on a stream with an arbitrary distribution of vorticity, **12**, 1962, 97

Theory of the vortex breakdown phenomenon, **14**, 1962, 593

The threefold classification of unstable disturbances in flexible surfaces bounding inviscid flows, **16**, 1963, 436

Note on the interpretation of two-dimensional theories of growing cavities, **19**, 1964, 137

Benjamin, T. Brooke & Barnard, B. J. S. A study of the motion of a cavity in a rotating liquid, **19**, 1964, 193

Bennett, F. D. *See* Steininger & Bennett

Benney, D. J. A non-linear theory for oscillations in a parallel flow, **10**, 1961, 209

Non-linear gravity wave interactions, **14**, 1962, 577

The flow induced by a disk oscillating in its own plane, **18**, 1964, 385

See also Greenspan & Benney

Bentwich, Michael Analysis of a rotating flow at small Reynolds number, **18**, 1964, 499

Betchov, R. An inequality concerning the production of vorticity in isotropic turbulence, **1**, 1956, 497

On the fine structure of turbulent flows, **3**, 1957–8, 205

A simplified theory of magnetohydrodynamic isotropic turbulence, **17**, 1963, 33

Bianco, E., Cabannes, H. & Kuntzmann, J. Curvature of attached shock waves in steady axially symmetric flow, **7**, 1960, 610

Binnie, A. M. Experiments on the onset of wave formation on a film of water flowing down a vertical plane, **2**, 1957, 551
Instability in a slightly inclined water channel, **5**, 1959, 561
Annular Borda flow, **19**, 1964, 187
See also Barnard & Binnie
Binnie, A. M., Hookings, G. A. & Kamel, M. Y. M. The flow of swirling water through a convergent-divergent nozzle, **3**, 1957–8, 261
